HENRY GEORGE IN PARIS.

THE SERVIAN RAILWAY.

NEW BRAZILIAN CABINET.

Paris, 8th—Henry George has arrived, and on Monday will preside over an agrarian meeting in this capital. He will uphold his doctrine of the freedom of soil and the necessity of a radical reform in land legislation.

Belgrade, 8th—Diplomatic negotiations between France and Servia continue about the expropriation of the railway.

The French Company will probably receive a heavy indemnity.

Rio, 8th—The following is the new cabinet:—

Premier and Minister of Finance—Viscount Duro Preto.
Minister of Empire—Baron Loreto.
Foreign Affairs—Deputy Diana.
Justice—C. Oliveira.
War—Viscount Maracaju.
Marine—Baron Ladario.
Agriculture—Lourenco Albuquerque.

Berlin, 7th—The *Post* says that if the Swiss Government does not strongly reprimand the employees implicated in the Wohlgemuth affair, Germany will retort by putting restrictions on the frontier freights, postal and passenger traffic. Wohlgemuth was an Inspector of German police, arrested for bribing a Swiss to be a spy, and who was expelled from the country.

Paris, 7th—The houses of two prominent Boulangists have been searched, and it is said that papers implicating the general in an international conspiracy have been found.

Madrid, 7th—Hailstorm has caused damage to public buildings. Many houses in the Manzanares Valley have been destroyed. Many people's lives were saved with difficulty.

Sydney, 7th—The steamer Lubeck, of New South Wales, has arrived from Samoa with dates to 28th of May. Everything is quiet, and the natives maintain a truce, owing to the news that German warships are coming. The foreign warships have left Apia. The British war-vessel Rapier sailed for the Fiji Islands, and U.S. vessels Nipsic and Alert left for Tutuila, to take coal and then go on to Auckland.

Johnstown, 8th—Many corpses are being found. The Orphan Asylum is receiving offers from all the towns in the Union to receive orphans. The stench is causing sickness, and an epidemic is feared. Orders have been given to at once bury corpses showing signs of decomposition. Eight thousand men were at work on the ruins yesterday.

London, 8th—Engineer Bourke, of the corvette Calliope, has been promoted for his services in the hurricane at Samoa.

Seattle, W.T. (*1 p*)—Yesterday a fire destroyed the commercial part of the city. Probable loss ten millions of dollars. Many people perished.

New York, 8th—The police have received an offer from a man to submit to execution by electricity on condition of his family receiving $5,000.

London, 8th—Parnell will recive citizenship of Edinburgh on 20th of July.

## A MISLEADING CENSUS.

Several colleagues have undertaken the patriotic task of proving to the world that whatever claims the Buenos Aires Census may have on the appreciation of its talented authors or on the admiration of statisticians, it has none whatever on accuracy [illegible] daily substantiated in lengthy articles, and the public is beginning to believe that the Census is a statistical fraud, though no less an authority than Dr. Latzina figures as the compiler of the work. Whilst statisticians are throwing tabular statements at each others heads, sifting the pros and cons before an amazed public, we shall limit our remarks to a glaring want of tact and good taste in this unfortunate census book. It is a well-known fact that the Census was drawn up by Argentine authorities, that the work was intended to figure as an Argentine production, and "summa summarum" to figure at the Paris Exhibition as a work of a thoroughly national character.

It stands to reason that in such a work nothing would be allowed to appear that might in any way unjustly offend the dignity of Argentines: yet from a close perusal of the observations in the text and remarks at the bottom of several chapters, we can discern a remarkable and unaccountable tendency to lower, in the eyes of the reader, the Argentine people. It may be that from a strictly statistical and scientific standpoint deductions arise that must reflect on Argentines as a race; but even if such be the case, which we very much doubt, there remains on the reader an impression that the author at times has gone out of his way to disparage, in the observations on vital statistics, the race of the land. This is all the more deplorable and out of place in a book drawn up by Argentines and received as a national document of great importance.

So much for a breach of good taste on the part of the authors or author, who carry on their shoulders a very unenviable responsibility; and it is only in this regard that we qualify the census, as we have had neither leisure nor wish to sift the accuracy of the figures—a task we leave to statisticians to ventilate. If, however, we can give any credit to the assertions of local statisticians, the vital statistics of the Census are wrong, and we would be delighted to see such statements corroborated, as then there is no longer the shadow of a plea for the scarcely disguised contempt and "cut oblique" rampant in too many pages of the Census. A close analysis is now being made of the tables of mortality, and charges of inaccuracy are brought against Mr. Latzina and his coadjutors.

One gentleman actually states that in the mortality tables of the Census, the mortality figures of 1887 for Flores and Belgrano have been omitted. Another states that Mr. Latzina is all wrong in his comparative calculations of the duration of life of foreigners and Argentines, as he has started from a fallacious basis to prove the unexpected and extraordinary result that Argentines are decrepit, as well as the offspring of foreigners born on this soil. However, we must await the answer of Dr. Latzina to such sweeping charges, and he is not a man to remain silent if he has any plank to cling to. We, for our part, protest against the bad taste of many of the remarks in the Census, but offer no opinion as yet on the accuracy or deficiency of the figures in the work.

EIGHT DAYS LATER.

THE STRIKES IN GERMANY.

THE EIFFEL TOWER AS A SUN.

NO OXYGEN IN THE SUN.

RAILWAY PASSENGERS TO PARIS EXHIBITION.

Berlin, May 15th.

The strike movement is spreading daily in all parts of Germany. At Sprottau the builders have decided to stop work; in Bunzlau the carpenters' assistants are striking; in Dortmund the brewers' assistants. In Konigsberg the carpenters' assistants are suspending work, an increase of wages to 37 pfennigs an hour and a reduction of working hours to ten being refused them. Some masters, however, have already yielded. At Wurzburg the carpenters have been drawn into the movement, and at Lubeck the joiners. At Bremenhaven the tailors have gained their point, and had their wages raised from 10 to 25 per cent per piece, a difference in their weekly wages of 30 to 90 per cent. Instead of 5 to 8 marks, they are now paid, and the working hours are 11 instead of 13 to 16. In Berlin the movement has also to spread. The breweries have become affected. The basket makers have not yet been able to agree about the terms to be made. The tailors and carpenters say that a general strike will break out amongst them.

On Monday a meeting of furriers' assistants was held, and the following demands were made:—Firstly, minimum wages of 21s per week; secondly, a maximum day of ten hours; and the abolition of all Sunday work and extra hours. As the negotiations with the masters had no result, it was decided that every manufacturer should be asked during this week by his assistants whether he consents or not. Should he refuse, then the assistants have immediately to lay the matter before the committee. The committee will once more request the master to yield, and if he refuse a strike will be ordered. A strike of the employees of the Berlin General Omnibus Company is imminent. The men without exception have 17 working hours daily, and then clean their cars in the sheds. They have up to now had only two free days every month, and this privilege was only granted those who had served longest, whilst the reserve conductors never had an off-day. The claims which the drivers make are: first, a rise of wages corresponding to the length of service (for all conductors from two shillings and seven pence to three shillings, and for the drivers from two shillings and nine pence halfpenny to three shillings and three pence per day); and secondly, the granting of at least four free days every month for the conductors as well as for the drivers. The directors are to decide by the 1st of June whether they will accede to these demands. Should they refuse, the drivers and conductors will give notice.

According to the latest reports, the coal miners' strike is spreading both in the Waldenburg district in Silesia and in Aix la Chapelle mining district. In the Waldenburg coal field there are now six thousand men on strike. A battalion of infantry arrived there yesterday, and it was considered necessary to draft another battalion into the district to day.

Paris, 15th May.

M. Janssen, of the Academy of Science, claims to have made a discovery which upsets the entire theory based on the analysis of celestial bodies by means of the spectroscope. Last Sunday the electric lamps of the Eiffel Tower were turned on [illegible] metres (4 miles 7 furlongs) away. He reckons that the mass of air lying in a section of that length at the height of the Tower is equal to the atmospheric mass above. M. Janssen argues from this that the number of molecules of air encountered by a beam of light sent from the Eiffel Tower to the Observatory is about the same as that met by sunlight on its way to the earth when the sun is near the zenith. He then shows that if the analogy holds true, the belief that the sun contains oxygen is unfounded, and that if its spectrum contains the characteristic oxygen rays this is due to the oxygen of our atmosphere. One of the fundamental theorems of spectrum analysis is that the width of the characteristic bands of a gas light is proportionate to the number of molecules that intercept the light. Now in last Sunday's experiment the most important rays of the oxygen group were precisely similar to those of the solar system. The conclusion M. Janssen draws is that there is no oxygen in the sun.

The public to-day were allowed to ascend the Eiffel Tower by the stairs. A large number of persons, notwithstanding a heavy downpour, stood in a line before the door for about three-quarters of an hour until it was thrown open. Only one of the four flights of stairs up to the platform was available. The cost of admission to the first floor was 2f., and a franc the rest of the way up. Many ladies climbed up to the lowest platform, a few continued to the second, and three mounted to the top. The state of the atmosphere shut out the vast panorama which will be visible when the weather is clear. What strikes one is the lightness of the structure. Looking down inward from the second platform it appears like a vastly magnified spider web. The four great shafts which sustain the whole weight are hollow, and have all the way up large orifices at regular distances. The arches and cross-bars support nothing, although they add to the solidity of the structure. The lifts will not be opened to the public until President Carnot has made the ascent.

The Paris Correspondent of the *Daily News* quoting official returns, shows that, on the day of the ceremony in commemoration of the opening of the States General, 336,000 persons travelled to Versailles by the railways alone. 139,000 went from Paris by the lines of the right and left bank, and 197,000 came in from the suburbs. This takes no account of the numbers that must have used the tramways, or travelled on foot. To put these down at another 30,000 would certainly not be excessive; and this brings us to a total of visitors (quite exclusive of the resident population) which almost equals the entire population of Manchester in 1881 (378,000), and exceeds that of Leeds in the same year (351,000). The railways alone transported more than the entire population of Sheffield, which at the census eight years ago was 321,000. As most of these people had to be taken out and home again, on the one day, this extraordinary operation in transit seems to exceed everything of the kind hitherto known. The returns testify to the power of the French railway organization to bear a strain, and apart from that afford a most gratifying proof of public interest in the great event of the year.

Mr. Smith will to-morrow be asked to state what practical effect the postponement of the Sugar Convention Bill will have upon the Convention; and whether if the Bill be dropped, such a course would render nugatory, as far as Great Britain is concerned, all the proceedings of the Convention.

In Committee on the Budget Bill Mr. Gladstone will move a new sub-section at the end of Clause 5, dealing with death duties on legacies of over £10,000. The Bill stands on the Orders for to-night, but precedence is given to Mr. Bradlaugh's motion on perpetual pensions, and the Budget Bill will probably not be reached till after dinner.

GENERAL NEWS

Nearly the whole of yesterday's sitting of the House of Commons was occupied with discussion of a Bill to provide intermediate education in Wales, the measure being ultimately read a second time without a division.

Last evening Mr. John Morley addressed the first annual general meeting of the Shoreditch Liberal and Radical Association. He severely criticised Lord Wolseley's last speech, replied to Lord Derby's criticisms of himself, deprecated the absence of our Ambassador from the opening of the Paris Exhibition, pointed out that much progress had already been made with what had been called the Clerkenwell programme, and condemned the Irish policy of the Government. English questions would have to stand over for a while until the claims of Ireland had been met.

Father Egan, a priest from the Lougbrea district, was called before the Parnell Commission yesterday. He repudiated the statements of Mrs. Blake as to his action on the occasion of Mr. Blake's murder. The murderers of Mr. Blake and his servant had, he declared, been denounced from the altar and at meetings of the National League. Mr. John Roche, of Woodford, was also examined. He maintained that if Lord Clanricarde and other landlords had met their tenants fairly there would have been no disturbance in the district.

Sir Thomas Farrer presided last evening at a dinner of the Political Economy Section of the National Liberal Club, and subsequently took part in a debate on the fiscal policy of the Government. He held that Mr. Goschen put a fatal blot on his reputation when he placed his stamp on the Sugar Convention Bill.

Yesterday was presentation day at the London University. Earl Granville, who presided as chancellor, said he had learned that the Royal Commission on the question whether there should be more than one University for London had made a Report to the effect that the present institution should remain the sole University for London if it would admit a very strong infusion of the teaching element into its government. That was a recommendation which the senate and the convocation had already pronounced in favour of.

A report on the prevalence of betting and gambling was presented by a committee to the Lower House of the Convocation of Canterbury yesterday, with a number of suggested remedies.

Several of the foreign delegates to the Sugar Bounties Commission were present as guests at a Court Dinner of the Fishmongers' Company held last evening under the presidency of the Prime Warden, Sir J. C. Lawrence.

"The Grandsire," a play founded on M. Jean Richepin's "La Flibustier," was produced at Terry's Theatre yesterday afternoon with brilliant success.

An extension of the Metropolitan Railway from Rickmansworth to Chesham was formally inaugurated yesterday, and will, it is anticipated, be open to the public early in July.

A great horse show was opened at Olympia yesterday, with new and interesting features. Prizes were given at night to the three smartest hansom cabs that entered for competition, and similar prizes are offered for tradesmens' carts The jumping competitions were conducted at night by aid of the electric light.

Our Berlin correspondent telegraphs that the strike movement is spreading to all parts of Germany, and nearly every trade. Builders, carpenters, brewers, joiners, basket makers, tailors, furriers and omnibus and tramway servants are agitating for increased wages and diminished hours of labour in most of the chief cities of the Empire. Some employers have already yielded.

On the second day of the York Races the Flying Dutchman's Handicap was won by Aperse, the Consolation Scramble Handicap by Castagnette, the Eglinton Stakes by Chasse Café, the Stamford Stakes by Order, the Tyro Stakes by Mistrust, and the Londesborough Plate by Wansbek. At Brighton, the Town Plate fell to Gold Dust, the Corinthian Welter Handicap to Brownie, the May Handicap to Engaddie, the Patcham Plate to Loretto filly, the Ovingdean Plate to Tostig, and the Hunter's Hurdle Race to Wolverhampton.

The Court of Appeal yesterday decided that it had jurisdiction to hear Lady Sandhurst's appeal from the decision of Baron Huddlestone and Mr. Justice Stephen, invalidating her election to the London County Council for the Brixton Division. Mr. Rigby accordingly commenced to state her case, and had not concluded at the rising of the Court.

On the Stock Exchange yesterday was pay-day, being the last day of the settlement. Prices gave way in the speculative markets, which are suffering from fatigue after a long continued rise. The Bank was besieged by borrowers for a day or two. Consols closed better at 99, 99½ for cash.

## PRESIDENT CARNOT'S SPEECH.

At the opening of the Paris Exhibition on the 6th inst., M. Carnot, President of the French Republic, made the following speech:—

"France glorified yesterday the dawn of a grand period which opened a new era in the history of mankind. To-day we come to contemplate in its lustre and splendour the work produced by this century of labour and progress. We come to greet the toilers of the whole world, who have brought hither the fruits of their efforts and the products of their genius. We come to offer a friendly hand to all those who have cooperated with us in the work of peace and concord to which we have invited the nations. We come to welcome visitors who already, from every point of the horizon, within or beyond our frontiers, are among us, heedless of distance, to take part in our festivals. They will find here a hospitable soil, a city glad to receive them; and they will see the true value of calumnies, dictated by blind passions, which even respect for the Fatherland cannot silence.

"Our beloved France is worthy thus to attract the *élite* of the nations. She has a right to be proud of herself, and to celebrate with erect head the economic as well as the political centenary of 1789. She has risen up with indescribable energy after the most cruel ordeals, and has never despaired of fortune. By her good faith in public engagements, and by her straightforwardness, she has inspired a just confidence. She has discovered in her institutions the strength required for nourishing labour, for reviving the activity of commerce and industry, and for restoring courage to agriculture, visited by a terrible scourge. The national thrift has received the most wonderful impulse, and never have there been more displays of generous initiative, of passionate devotion, in all branches of public and private beneficence. France, I proudly repeat it, is pursuing in calmness and peace her work of progress, and the laborious century, nearly at an end, will leave deep traces in history. What an advance have we made since Francois de Neufchateau installed in 1798 110 exhibitors in the Temple of Industry! What a wonderful bound has been taken by human activity, freed from all the fetters of the past! What a development of public wealth since labour was emancipated, commerce was liberated, and inland custom-houses were abolished! From the social standpoint the progress may be expressed by this eloquent formula:—"Human life lengthened, mortality diminished." In the invigorating atmosphere of liberty the human mind recovers, science takes its flight, steam and electricity transform the world.

"A century which has seen such miracles ought to be celebrated. It cannot be better celebrated than by this admirable co-operation of peoples, who come from all parts of the world to bring together the marvels of industry and the splendors of art. In these grand festivals of labour nations may draw together and understand each other, and feelings of esteem and sympathy should spring up which cannot fail to influence the destinies of the world, by advancing the time when the resources of the nations and the produce of their labour will be devoted only to the works of peace. The appeal of France has been listened to, and the spontaneous and independent co-operation offered by the peoples themselves to this demonstration of international fraternity adds to the moral lustre of this festival. Of its material lustre you will presently judge. You will see the surprises reserved for our generation by the marvellous progress of science, as well as by the inexhaustible resources of human industry and the artistic treasures which cast such brilliant light on our age. You already know the building in which those marvels are displayed. You have appreciated on entering the fine arrangement of this great Exhibition, in which engineers, architects and builders have vied in science, activity and devotion, in order to offer the world a work worthy of the genius of this country.

"On behalf of France I thank them and their colleagues. They have not conquered without a fight. They had to triumph over material obstacles, and above all over persistent ill-will, shown by those who do not understand that an Exhibition is not a work of party, but the work of France. These earnest men have responded to the confidence of the Republic, and have fulfilled all its engagements. Having borne the burden and heat of the day, they are entitled to share the honours. And now we will go and visit together the treasures accumulated in these palaces [illegible] which has thus given our country so signal a testimony of confidence and sympathy. Again cordially welcoming the guests of France, I declare the Exhibition of 1889 open."

## Railway Items.

INSPECTOR-GENERAL SCHNEIDEWIND'S REPORT ON THE WORKING OF THE RAILWAYS IN APRIL—ITEMS ITEMS FROM THE N. E. BOARD.

A treat for our railway-friends to-day Inspector-General Schneidewind's report has been sent by Mr. Pirovano to the Home-Office, and by extraordinary luck we succeeded in catching a glance at it in its swift passage from the Board of Public Works to the Ministry. It is a lengthy and interesting document, some 44 pages, and gives a very fair idea of the working of our railways in February. It begins with the Buenos Ayres and Rosario Line. This railway has greatly improved, and the company are very actively repairing the damages occasioned by the recent floods, particularly between Belgrano and Campana, and from Galvez to Sunchales. New culverts have been built in several parts. The laying of the double track between Belgrano and San Martin is being actively pushed ahead. The movement of trains during the month was 995, including 13 special passengers' and 21 special goods' trains. The rolling-stock is in very satisfactory condition, and the workshops turn out excellent work. The service in general is very satisfactory. So much for the Rosario Line, which cannot complain of Mr. Schneidewind's report.

Central Argentine:—The road-bed, although still much damaged, has nevertheless greatly improved, thanks to the activity of the manager. New deposits are being erected and many stations enlarged The service is not at all satisfactory, which is mostly due to the injured state of the line in many parts. (We skip over 3 pages of tables shewing number and causes of delays during the month). In a word the service leaves very much to be desired. The rolling-stock is good: 9 locomotives were overhauled for thorough repairs. Four accidents occurred in the month.

Buenos Ayres and Pacific:—In spite of the activity of the company, most of the first section of this line is still in a lamentable condition. The number of men engaged in the work of repairing and ballasting the line is not sufficient. The great bulk of the men are at work between Pilar and Agote, where they are raising the earthworks. The state of the second section is satisfactory, that of the third ditto, with the exception of the earthworks at kils. 277 and 379, between the stations of Arenales, Vedia and Orellanos, which have been considerably damaged by the swollen waters of lakes Soria and Picasa. The 4th section suffered most from the heavy rains; 130 kilometres of line are utterly useless between Soler, Laboulaye and Julio Roca, owing to the overflowing of the Rio Quinto and lake Almagro. The swollen waters are not permanent or stagnant. They appear to flow westward and are being continually renewed. The earthworks, of course, give way.

Another curious fact: Towards the end of March, there was no water on the line between Soler and Rufino, the principal lakes being situated between kils. 454, 470 and 471, at a height of 30 centimetres over the level of the rails. In the last days of April, the waters fell in those places, but, on the other hand, between Soler and Rufino, rose 60 centimetres over the rails. In some parts the waters neither rise nor fall.

The fifth section is in satisfactory condition.

In regard to the rolling-stock, its condition is excellent; 21 locomotives are running, and there are 4 undergoing repairs in the workshops. Although the service is fettered by the bad condition of the line marked improvements were made towards the end of April.

Argentine Great Western—The bed has been well repaired, and the new station at Villa Mercedes will be soon finished. The service is very unsatisfactory. (A list of delays, 3 pages, follows).

Central Northern—The permanent way is in good condition in general, but in some parts, particularly between Dean Funes, Quiline, and San Jose, the line is in a very bad state. The line has been well repaired between Cordoba and General Paz. The service has not been satisfactory. Three accidents occurred during the month.

Central Entre Rios—The line is in a very wretched condition. The rails are twisted, almost useless, and traffic has been repeatedly suspended. The workshops are steeped in neglect. The rolling-stock is in fair condition. A very considerable number of men will be required to properly repair the line.

East Argentine—Owing to the recent floods, this line is in a bad state still. The rolling-stock in general is in good working condition. There are 7 engines running. The service is by no means satisfactory.

It appears that Mr. Stant's idea of a railway to Montevideo is being revived. This is project No. 3; for, if we rightly remember, Mr. Stant presented the first, about a year ago: then came Messrs. Yofre & Co., and now Messrs. Milemon and Co. are in the field with a somewhat similar scheme. Their proposed line would start from Dean Funes in Cordoba, crossing the richest districts of that rising province, SantaFe, and Entre Rios. A bridge would be thrown across the river at Concordia. A branch would run on to Brazil. In this manner B. Aires, Montevideo and Rio Janeiro would be connected by rail. The line would have a lengthof 620 kilometrss and the applicants propose to sink $4,400,000 in the construction of the bridge across the Parana, in front of Rosario. Of course the free navigation of the river would not be interfered with. Mr. Stant's project was not so vast and was more feasible, and we hope to see it carried out yet.

Letters were received yesterday by Dr Araoz from the manager of the Central Entre-Riano, who says that if the weather continue fine, he will soon be enabled to resume his old time-table. This reflects great credit on his activity.

Mr. J. C. Cortinez has drawn up a list of the stations of the same name on different lines. The list is truly formidable, and we cannot wonder that letters so often go wrong. We keep the list for reference. Mr Cortinez urges Dr Araoz to correct this abuse, for abuse it is. The managers will be invited to meet and decide as to the best way of avoiding the repetition.

[illegible] protest, signed by leading merchants, has come down from Santiago del Estero and Tucuman, and is now in Dr Araoz's possession. The merchants complain of the repeated suspension of goods traffic, whereby their business is very seriously injured.

The National Government resolved yesterday to fix the inauguration and traffic opening of the Chumbicha-Catamarca line railway for the 25th inst. The Governor of Catamarca has been requested to represent the National Government at the ceremony.

The following railway fines were endorsed by the Government yesterday:—

| | |
|---|---|
| Pacific Railway | $ 2,700 |
| Andine „ | 11,000 |
| Central Argentine R'y | 1,000 |
| Central Northern „ | 1,000 |
| Great Western „ | 3,200 |

Alas! Guaranteed lines.

## EDITOR'S TABLE.

The Blue-noses were in a majority yesterday, thanks to the sudden downward plunge of the thermometric mercury. Lots of people sighed for the proposed new skating rink.

We were right in predicting that some other provincial bank would take the floor in the bogus note line. The Free Bank of Entre Rios notes are now said to be largely forged as well as those of Cordoba; but it is supposed that most of this fresh forgery has been floated in Tucuman, Cordoba and other parts of the interior. Yesterday the usual "changing" scene went on at the National Bank, but only seventeen forged notes turned up, five of $50 and twelve of $10.

If the weather prove fine to-day, the soldiers' pic-nic will come off at Palermo; if not, all the provender will be distributed to them in their respective barracks, and they will be allowed to have a mild "spree".

Another pious subscriber came down on us in the theological line yesterday. He is inclined to think that the Church of England and the Episcopal Church are the same, at least "across the border".

The great three-against-two ball match, so often postponed, is again announced for to-day. Elicegui and Samperio are not such favorites now, since the latter lost a match during the week.

We have to thank the well-known music publisher of Calle Rivadavia, Mr. E. Helitsky, for several pieces of the newest music—polkas, waltzes, marches, etc.—all beautifully bound in green and gold. We strongly recommend them to learners. They are called "Easy Pieces" for beginners.

Another bloody affair took place yesterday in La Plata, where a shooting affray occurred in the Roma Hotel, the result being a broker named Castilla shot in the shoulder, a man named Gomez in the chest, a police inspector in the stomach, and the hotel proprietor in the legs. Castilla and Gomez began the shindy.

The Flores Anglican Church is rapidly approaching termination. The painters have already begun work inside, and the Rev. Lennox Robertson hopes to see everything complete before the end of the month.

Our important colleague *La Nacion* cries "Basta de berri-berri!". So do we, most heartily. The fuss made for the last week about this purely tropical disease, which cannot exist in this climate at any time, much less in midwinter, has been most absurd. The cream of the joke is that the post-mortem shows the man to have died of heart disease!

The City Fathers sat till 8 p. m. on Friday night, and went home with excellent appetites for a late dinner. Although they debated several things in a dreary way for four mortal hours, they did almost nothing. One good thing they did, and that was to refuse to consider the ordinance oppressing cock-fighting and pigeon-shooting, which Alderman Piera wants to keep up, on the ground that the city receives yearly 40,000 nats by them. Lord Mayor Seeber made an excellent speech in favour of the suppression of these falsely-called sports, winding up by saying "If pigeon-shooting be necessary, let them shoot at plaster pigeons as in Paris. The only approach to fun during the sitting was when President Cranwell announced that the owner of the house in which they met had given the Concejo D—notice to quit, and an Alderman replied "I suppose in consequence of all the rows we kick up."

The parson's rejoinder.—A witty nobleman once asked a clerical gentleman at the bottom of the table why the goose, when there was one, was always placed next to the parson. "Really, my lord," said the clergyman, "your question is somewhat difficult to answer and so remarkably odd that I vow I never shall see a goose again without being reminded of your lordship."

There will be a Black Art turn-out in the San Martin Theatre on Wednesday night next, for the benefit of the Typographical Society. Half town should attend. A nice sort of world this was before books and newspapers were invented. There's nothing like printer's ink.

The "Estudiantina Española" has had a prodigious success in London, in the Islington Hall, which is filled nightly to hear the Dons play and sing and see them dance. Admission a shilling.

The *Southern Cross* proposes that instead of a banquet, a carriage and horse, to enable her to visit her patients properly, should be given to Miss Grierson, the first Argentine lady doctor. The idea is a capital one. Ladies don't care a fig for eating and drinking, except at a ball, when they frequently "tuck in" to an extent that rather astonishes the male bipeds present.

We take the following amusing paragraph from a London gossip paper:—

"Sir Robert Peel told a very funny story the other night about his distinguished father. On one occasion while he was Irish Secretary he attended an examination at a national school, and doing his very best to be genial—for he was the most cold and unbending of men in his manner—he blandly asked the assembled urchins the following question, "Now can any of my little friends here tell me why Moses left the land of Egypt?" Dead silence for a minute, and then a muddy little paw was held up. "Please, sir, I can," stammered a promising youth of ten. "Ah, I thought so," smiled Sir Robert "Now. come out here and stand before me, and tell me, and tell your little comrades why Moses left the land of Egypt?" The child came forward as requested, and when standing in front of the great statesman, said very gravely and innocently, fully conscious that he was right, and looking Sir Robert straight in the eyes in expectation of a smile of praise —"Please, sir, he left because he killed a peeler!"

[illegible] bition next year, to show "enfeebled Europe" what we can do in that line, has flown across the water. Montevideo is to be the place. It's a pity the thing cannot be worked here, in the capital of South America. A year's time, many people think, is not sufficient to get up a proper show. Better put it off till 1891.

The largest proprietor of orange groves in the country has just "gone to glory." He owned over 50,000 orange trees at Lavalle, in Corrientes. After oranges, his taste ran on dramatic authorship, and he wrote a geographical comedy of which he thought far more than of his orange property.

The Zarzuela company at the Olympic in La Plata, after a fortnight's sound hissing, has beat a retreat and left the place. A little "leg opera" will now be tried, as more likely to suit the refined tastes of the Platenses.

There was nothing interesting in our Montevidean exchanges yesterday, except Mr. Edward Casey's second letter to Mr. Sanford on the Obras Company. He says he will yet make it the greatest enterprise in all South America.

The *Prensa* published a very stiff leader yesterday on the official shortcomings that have led to the threatened exodus to Chile of a large number of our countrymen from the Welsh settlement at Chubut. They have been three years waiting for the lands and titles promised them, and will wait no longer. Besides, there is something radically wrong with the Argentine Emigration Agencies in Europe. Nearly all government emigrants appear to be unmercifully fleeced under the guise of fees, etc., which they have no right to pay. *Two* and sometimes *four* pounds sterling per head is the amount of this blackmail. What are the Argentine Consuls, Consuls-General and Ministers about, that they do not prosecute the guilty parties?

Dr. Davidson let fly in the *Prensa* an other Woolwich Infant shot at the City Improvement Works yesterday. He proposes that Government name a Committee of citizens, including three national engineers, unconnected with either the Government or the Improvement Works, directly or indirectly, and he to name three more, to report on the charges he has made. The doctor offers to take such Committee to the streets where he can lay his finger on the proofs of what he says. He proposes also that the citizens form a Health Protection Society, to take the whole case before the Tribunals. Other tremendous things Dr. Davidson hints at; but his letter is too long for further comment here. Whoever intends to join the H. P. S. is requested to send his card addressed to Dr. Davidson at the *Prensa* office.

The Don's] mails bring news of a tremendous blaze in Quebec which appears to have escaped both Galveston and Havas. Five hundred houses ended in smoke, sparks and soot. Nobody killed.

The first man among the public to reach the top of the Eiffel Tower when it was thrown open was an Englishman. One thousand people went up the first day.

Madame Tubau, the great Spanish actress, took her benefit at the National Theatre on Friday night in Frou-Frou and received enough presents to set up a "Bon Marche." She will have to buy a dozen more jewel cases. There can be no doubt as to the genuineness of the offerings, all the very first names in the city fill the list. It is the greatest tribute actress or singer has ever received in this city, and quite an event in our theatrical annals.

The police are said to be puzzled about the mysterious affair in a house in Calle Viamonte the other night. They have found the tenant, a woman, who ran away, but she knows nothing of one of the rooms being full of blood. A hackney carriage stained with blood has also been discovered, but the driver declares he drove no wounded person, and cannot account for the stains inside his vehicle. No corpse or wounded person can be traced. The neighbours know nothing, heard nothing, saw nothing. It's a queer affair.

There is a fast-increasing rowdy element in our population. The latest proff of this is the complaint of the hackney carriage drivers daily of the smashing by their fares of the glass case in each vehicle containing the new tariff. This is wanton vandalism, as the new fares have been purposely put in the carriages for the protection of the public.

A new Rowing Club, the members to be exclusively Argentines, is mooted in Rosario.

On Sunday last a gentleman called at the Protestant cemetery of Rosario and requested Doña Maria, the caretaker, to disinter his wife, who had been buried some 10 years, as he wished to see her. We have not heard if the wish was granted, or if he was locked up as unsafe. *Reporter.*

We had the pleasure yesterday of receiving a letter from the Rev. J. W. Fleming, of the Scotch Church, who went home in the R. M. S. Tagus. The voyage was a very pleasant one. On arriving at Southampton the box for subscriptions for the widows and orphans of men dying in the Company's service was found to contain £220, the largest sum ever yet collected on board a Royal Mail steamer on a single voyage. The bulk of it was obtained by the sale of programmes of the dramatic entertainment and concert given on board. A full programme, with a painting of the vessel leaving St. Vincent (by Mr. Malcolm Graham of Rosario) was bought by Mr. Bowen for £60. Five other smaller programmes fetched £68. Mr. Uriburu paid £20 for one of them. A "Remate," in Argentine style, was also held, and gave splendid results, thanks to the charitable zeal of the auctioneer, Mr Natal Torres, who could not have been surpassed in wielding the hammer on the occasion, even by Bullrich himself.

"Refrigerating cars" is what the public now dub the open tram cars. So they are; at least they were yesterday. It was pitiable to see the sudden-attack-of-colic countenances of daily-bread men going home to dinner in these open cars. But there is no help for it. No company in town has closed cars in sufficient number, nor is likely to have them.

We return our very best thanks to F.G. for the bundle of English papers he sent to us yesterday.

A cousin of Madame Colonesse, the popular prima donna, bolted from her house on Friday, taking with him $208 belonging to her.

Several fine Spanish asses, just imported, are now on view at the mart of Messrs. Lagos and Funes.

The first pickpockets grabbed by the Paris police at the Exhibition were Italians, a woman and two men, from the River Plate, who speak French, Italian and Spanish perfectly. Hordes of thieves from all parts of the world have flocked to Paris for plundering purposes during the great Show.

Ubicadas en las provincias de Santa Fe y Santiago del Estero a corta distancia del ferro-carril de Buenos Aires Rosario y Colonias y su prolongacion a Santiago y Tucuman a 290 kilometros mas o menos de la estacion Arroyo y no muy distante de las estaciones Hercilia y Ceres, centros de colonia agricolas campos de un inmenso porvenir, las regiones del trigo.
Se remataran por orden de la sociedad Colonizadora Argentina, con la infima base de 5 ps. hectarea, Calle Alsina 482.
El Martes, 11 de Junio
A LAS 2 P.M.
Estos esplendidos campos estan situados parte en la provincia de Santa Fe, parte en la de Santiago del Estero distando 35 kilometros mas o menos de los Morteros en la provincia de Cordoba, rodeados por campos del señor Tristan A. Malbran, Colonizadora Argentina y otros.
Estan divididos en lotes de 4 leguas con 7522 hecta 9 areas 20 cents y se reemataran un lote con opcion a mas o al todo con la infima base de 5 pesos hectarea precio increible si lo comparamos con los campos que se venden por las colonias y que se pagan 80 a 100,000 ps. legua; campos que hacen apenas 8 años no podian venderse arriba de 100,000 ps legua. Hace apenas 3 meses se han vendido campos inmediatos a los Morteros a razon de 57,000 ps. legua.
Los campos que mencionamos y ofrecemos en venta quedan muy inmediatos al ferro-carril de Buenos Aires y Rosario cuya prolongacion a Santiago y Tucuman pasa ya la estacion Ceres en el kilot. 120 que va a ser la gran estacion de maquinas maestranza y sobre la cual se esta formando un importante centro agricola, la estacion Arruño 80 kils. dista unos 90 kils. mas o menos (6 a 7 leguas) de estos campos y desde donde pueden dirijirse los interesados que deseen inspeccionarlos y ende en linea recta al Oeste.
La importancia de esta localidad es innegable y a la vista de todo el mundo. La poblacion de Santa Fe va extendiendose con una celeridad hasta ahora desconocida en un par de años terminado que sea este ferro-carril el de los Sres. Portalis y los ramales que se iran construyendo produciran una gran revolucion en los valores de aquella region.
Ofrecemos hoy una fortuna a los que tienen 16 en el porvenir del pais y no deben perderla pues raras veces se ofrece mejor y mas brillante negocio.
Por mas detalles y planos ocurran casa de los Sres. Guillermo Gowland y Ca. San Martin 175 o a la nuestra, Alsina 482 donde se efectuara el remate

Dr. J. Collis Browne's
CHLORODYNE.
THE ORIGINAL AND ONLY GENUINE
Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.
From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London
Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain.
Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr. J Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to,—See "The Times," July 13, 1864.
Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.
Caution.—Beware of Piracy and Imitations.

# ESPECIFICO DE Hayward en Polvo

The cheapest and most efectual Dip in the market.

It costs a fifth of the price of Tobacco Dips.

It is the easiest of application, cold water only required.

It is the only Dip that is so durable in the wool as to keep the sheep clean and free from contagion from dipping to shearing, thus saving a great deal of valuable time and labour to the Estanciero during the winter months.

It is fast becoming the favorite Dip throughout the world, as it never fails in the worst cases of Scab.

See Testimonials from Flockowners in the Argentine Republic.

Manufactured by TOMLINSON & HAYWARD, Lincoln, ENGLAND.

Established upward of 45 years.

Sold in cases containing either 80 small, 20 medium, or 10 large packets. Each case makes 1600 English gallons, or 1900 Galones Argentinos.

THE BEST CURE FOR SCAB is COOPERS SHEEP DIPPING POWDER.

It has been in use since the year 1843 and is now used upon

more than 50,000,000 sheep every year

Equally good for Dipping or Handcuring.

Guarranted always the same Strength.

Read what estancieros say of it;

GEO. BELL, "Estancia Grande," Pereira

I have found it the best I have ever used. my sheep are perfectly sound, and these condition and the good look of the wool I attribute to the above Dip.

R. JACOB, Pergamino

I shall not cease to express my opinion that Cooper's Dip is without rival its results as well as for its cheapness.

ERNESTO MADERA. Maipu

The result obtained has been so satisfactory that I think it difficult to find a better and more certain remedy.

THOS. BOLLAND, "Flor de Mayo," Pergamino

None has give me such satisfactory results as Cooper's Powders.

TEODORO PETERSON, "La Belgica," Ayacucho

Cooper's Powers have given me better result than any remedy I have used yet.

GEO. E. CATTY, "El Divisorio," Bahia Blanca.

I have used Cooper's Powders for three years with the very best results on the cure of scab, and I consider that my wool has improved in appearance since ave used it

The business to-day was again fairly brisk in stocks, all keeping up to the current quotations, which is giving rise to a general belief that there will be a heavy withdrawal of stocks of all kinds at end of month. Even National Bank Shares were firm and in demand, a satisfactory feature after the late dulness. Quotations spurted up to 266.50, but there were many sellers at this rate, which could not be maintained, and the price finally gave way to 265.50, at which it closed. Nothing is known or spoken of for the moment about the syndicate, but it is supposed that they are looking for money to take up further lots, which, if successful, will no doubt be duly reflected in the rates. For the moment, however, bears are cautious, and bulls are occupied in the other stocks. The Pobladores Railway Scrip attracted much attention, advancing in a bound to 60 for cash, but afterwards falling back to 55, the opening rate; for end of month they opened at 57 and closed at 60. One lot of 100 fully-paid up shares was marked done at 127, or say at an advance of 15 points. Sud-Americano Shares showed a most satisfactory improvement, advancing to 101 cash and 105 end of month; this is considered one of the best stocks in the market, although it has lately been at a heavy discount. General Pobladora Shares were a trifle weaker, opening at 194, rising to 195, and closing at 192. Bolsa Bank Scrip was firm, as also La Plata Moles and Flores Constructors. Constructors opened and closed at 137.50 for cash, and closed at 138.50 for end of month, the Scrip being firm at 94.50. Cedulas were rather weak and dull.

Mr. A. P. Bell, the well-known engineer, was welcomed to-day on 'Change. He arrived in the R. M. S. Don, which he considers the finest steamer of the company During the voyage, this side of St. Vincent, the fourth mate was knocked overboard by a sail in a pitch-dark night. The sad event cast a gloom on the passengers and marred all enjoyment. Mr. Bell has been five months absent, and expects to remain in the Plate till the end of the year. Mr. A. McNally was also welcomed by his legion of friends on and off 'Change.

The Bolsa received the following commercial telegrams to-day:—

London, June 7th—Consols 101¼, Treasury Bonds 99, Hard Dollars 63½, Argentine 1881 Loan 103, Argentine 1884 Loan 100, Buenos Aires 1870 Loan 101, Buenos Aires 1882 loan 103½. Paris exchange on London 25.17 francs.

Dundee, June 7th—Thread market buoyant.

Manchester, June 7th—Market quiet, but sustained, and prices unchanged.

Hamburg, June 7.—Salted potro hides 14.25 marks.

Antwerp, June 8—Salted novillo hides 52½ francs; do heavy same rate; cow tallow 63½ francs. No stock of sheep tallow, bones, bone ash, R. Plate wheat or flax; maize, R. Plate, 11 francs. Stock, 70,000 salted cow hides and 1100 pipes of cow tallow.

Havre, June 8—Stock, 44,000 salted cow hides and 200 pipes sheep tallow.

Liverpool, June 8—Cotton market firm, and heavy shipments to R. Plate reported. Stock, 3,700 pipes cow tallow and 700 pipes sheep tallow.

It was rumoured on 'Change this evening that application has been made to the London Stock Exchange to allow the shares of the National Bank a quotation, and that same has been granted.

Strong buyers of National Bank Shares for cash were offering to-day, but very few sellers.

The payments on 'Change were not to say heavy, and to judge by what was going on at the 'barraqueros' table the produce business for the week was light.

Mr. Bouwer, agent of Messrs. Baring Bros., left yesterday for Montevideo. He will return in a few days.

Money is beginning to rule very easy in the market. All the banks are discounting, but the demand for gold is felt, and the premium continues high; still first-class gold discounts are done at 7 per cent.

We hear from the brokers that a large lot of National Cedulas go to London to-day by the Pleiades. She also took gold.

The losses by the banks in false Cordova Bank notes are most trivial. We hear of three small notes being stamped false in a pile of 200,000. The false notes, being photographed, are most easily detected.

The shares of the Banco Constructor de Flores are in good demand and rising. The company it seems is doing a splendid business, and its affairs are very ably managed.

If the weather to-morrow proves fine there will be a very large attendance at the Hurlingham auction, as the greatest interest is taken in the sale of these lands, and we hear that 100,000 Nats. are already subscribed to build a fine hotel on the ground, which is at present to be had so cheap, and in a very few years will be so very valuable.

Mr. Musson, Manager of Messrs. Bates Stokes and Co., has arrived back from England in the s.s. Don, after a short and pleasant trip.

Business at the second hour was brisk all round. National Bank shares were buoyant and in great demand, running up to and closing at 267 for end of month. It seems that there are very heavy buyers for end of July and passes are consequently the order of the day, since the price for both months being more or less the same, the five points dividend form the pass. Cedulas were as in the morning, neglected. Constructors were a trifle weaker, both for cash or end of month. In Catalinas nothing was reported done, but several parties were looking for shares for cash and could not get them. One lot of Provisora shares were done at 175. Flores Constructors were firm, and Sud Americano shares firmed up to 115 for end of month, due to a rumour that the bank will be able to pay a splendid dividend. Pobladora shares were a trifle weak, but the Pobladores scrip kept firm. There were many sellers offering in La Plata Moles, and they were done at 168 for end of month and 173 end of July. Bolsa bank scrip was firm.

The premium was again stationary to-day, being quoted at 160.30. This absence of fluctuation is a decided relief to the market, and even a 60 o/o premium is a boon, if it were only a permanency.

The Pleiades took £120,000 in specie.

The Executive will soon send to Congress a bill providing for the repairs of the Concepcion Uruguay bridge, at a cost of $100,000.

Another important decision of the National Government to-day is the approval of the contract of the Dock Sud de la Capital. This will spread sunshine in some quarters.

The Argentine Minister in London calls the attention of Dr. Quirno Costa, Minister of Foreign Affairs, to the prospectus of the Argentine Southern Land Company, Limited, inviting the public to subscribe capital to buy 24 leagues of land on the Chubut Colony Railway to New Bay, also 298 leagues said to be granted by the Argentine Government under the provisions of the immigration and colonization law—capital £280,000. We know nothing of it; perhaps the Government does.

Messrs. N. Quirno & Co., who propose to canalize the Anchas river and unite it with the Riachuelo, have applied to the Home Minister for an audience to inform H.E. of all the studies and surveys made, already on a large scale. Messrs. Quirno will present to the Executive the final surveys and plans, also the chief conditions of the company's charter under which that mammoth and transcendental work will be carried out.

The National Bank granted to-day gold to the amount of $206,268 at 59.80 and 60 o/o premium.

The National Government appointed to-day the following gentlemen to study the social and economic features of the Paris Exhibition:—Chairman, Mr. Santiago Alcorta. Directors—A. Terry, Julio Victorica, Gabriel Carrasco, Alfredo Artiaga, A. Prat, E. Reynal O'Connor, José Luro, Alejo Peyret.

The National Government approved today the contract framed by Mr. Julio Calvo, manager of the General Pobladora, to widen the present channels of the Riachuelo and Rio Matanzas, and drawn up according to Law No. 2374 of 18th Oct. 1888.

Tucuman advices announce that in spite of the unfavorable season the sugar cane crop this year will yield about 30 o/o more than formerly, and of a most unexceptional quality. Had the weather been favourable the crop would have been magnificent.

Messrs. Lamport and Holt have in construction 4 large steam lighters to be employed in the loading and discharging of their steamers, so as to prevent all delay in despatching both steamers and cargoes, with these lighters the steamers will not be obliged to enter either the South Basin or the Riachuelo, and they will be ready for use in less than six months.

*Kelso's Weekly Mail List* made its appearance again to-day, with a list of all the packets clearing during next week.

The following transactions in real-estate are reported:—

Calle San Martin 264-78, 22x34, for 253,700 dollars.

Glycerole

GLYCEROLE is the finest preparation ever invented for polishing Boots and Shoes. It contains oil, therefore it preserves the leather and does not crack or dry it as the ordinary gloss or dressing does. It also makes worn goods look like new.

For Sale at the principal Shoeshops. Newcastle; Hidrem from Pensacola; Elizabeth from Newport; A. A. Vinger from Newport; G. W. Oliver from New York; V. G. Fichte from Paranagua; Victoria from Genoa; Dante from Barcelona. Olimpo sails.

DECKER'S
American Whiskey.
ABSOLUTELY PURE

An exquisite liquor—so harmonious in combination—so evenly balanced—so delicately toned—a flavor so rare—so tantalizingly pleasant to the palate—possessing character so novel and so entirely its own, that it may fairly claim the very first place among high class stimulants.

Eligible Building Sites
"VILLA MODELO"
Easy terms of Payment.

The attention of the English-speaking population of Buenos Ayres is directed to build sites in the newly projected town of "Villa Modelo," one square from the Villa Catalinas Station on the Rosario Railway, within half an hour's journey of the Central Station.

The land has cedulas on it, and the conditions of purchase are most favourable. A large market will soon be in course of construction. These lands are rapidly increasing in value and intending purchasers should apply at once, to

Luminous Phosphorus! Important to Invalids!

All Medical Authorities agree that Phosphorus, administered in its *free*—that is, *unoxidized*—state, is an unvaluable remedy in disorders of the Nervous System, especially in Loss of Nerve Power, Mental Depression, Incapacity for Work, Want of Energy, Neuralgia, Feeble Digestion, Loss of Physical Vigour. In these and other conditions indicating defective nutrition or exhaustion of the nervous centres, arising from over-work, the effect of climate, and other causes. It is

the only effectual remedy.

The four great Remedies for Nervous Disorders

Phosphorus, Iron, Quinine and Nux Vomic

each in its proper dose, are prepared in combination, in the form of Compound Phosphorous Pills. They are coated to render them tasteless, and supply the best and safest means of administering the above powerful tonics.—Sold in bottles 3s. 5s. and 10s. (English money.) The 10s. bottle containing sufficient for a course of 3 weeks. Two 10s. bottles may be obtained direct from the makers' laboratory, carriage paid, by remitting Post-office order for 25s.
